Antrag auf Zulassung zur Abschlussarbeit im Bachelorstudiengang Mathematical Data Science (Studienstart ab WS 22/23)

Gewählter Studienschwerpunkt	
<input type="checkbox"/> Optimierung und Bildverarbeitung	<input type="checkbox"/> Maschinelles Lernen
<input type="checkbox"/> Mathematische Statistik	<input type="checkbox"/> Angewandte Statistik und Ökonometrie

Angaben Antragsteller*in:

Matrikelnummer: Email:

Vorname: Nachname:

Verbindliches Thema der Bachelorarbeit (auf Deutsch oder Englisch):

BITTE LESERLICH IN DRUCKBUCHSTABEN SCHREIBEN. DER TITEL ERSCHEINT SO AUF DEM ZEUGNIS.

Englische Übersetzung des Themas (nur wenn verbindliches Thema auf Deutsch ausgegeben):

Der vier-monatige Bearbeitungszeitraum beginnt am:

Mir ist bekannt, dass laut Immatrikulationsordnung die Abgabe der Abschlussarbeit nicht in einem Urlaubssemester liegen darf. Diese Regelung hat zur Folge, dass die Abschlussarbeit noch vor Beginn des Urlaubssemesters abgegeben werden muss.

Ich versichere, dass ich bisher keine Bachelorprüfung in demselben oder einem vergleichbaren Studiengang an einer Hochschule im In- oder Ausland endgültig nicht bestanden habe oder diese als nicht bestanden gilt.

Scientific Writing as a part of MDS Bachelor's degree project B.Mat.3999

This page has to be handed in

- 1) (without tutor's confirmation but with the milestone dates) at the time of thesis registration to anna.platte@informatik.uni-goettingen.de
- 2) (with tutor's confirmation) at the time of thesis submission as an additional upload in FlexNow.

Name:

Enrolment Number:

Writing Buddy:

If you already have a writing buddy, please enter his or her name. Otherwise, please leave the field blank.

Submission Dates Milestones

Please note that the deadlines for the milestones are to be defined in dependence of the thesis starting date according to the following scheme.

The milestones are always due on Fridays at 5 PM, **counting starts the day after the thesis starting date** (= "Beginn der Bearbeitung" / "Beginning of the work" according to page 1).

Milestone	Bachelor's Thesis	What is to be submitted?
1	4 th Friday after registration	Research Proposal
2	10 th Friday after registration	Figures and Tables Draft ¹
3	13 th Friday after registration	Full Draft

Beginning of work (according to thesis registration form):

Milestone Submission Date To be filled in in at the time of thesis registration.	I confirm that the milestone was presented and discussed to be filled in by the tutor
1: Research Proposal Friday, _____, 5 PM	Date: _____ Name: _____ Signature: _____
2: Figures and Tables Draft Friday, _____, 5 PM	Date: _____ Name: _____ Signature: _____
3: Full Draft Friday, _____, 5 PM	Date: _____ Name: _____ Signature: _____

The **tutorial**, in which the milestones and the peer-feedback will be discussed, is offered every Tuesday, 8 AM. **Please check StudIP for your individual appointments.**

I talked to my supervisor about and took notice of the above-mentioned submission dates.

Date

Signature Student

¹ Please let your tutor and the study advisory (st@math.uni-goettingen.de) know, if Figures and Tables will not be included in your thesis.

Dear colleague,

you are supervising a thesis in Mathematical Data Science (B.Sc.). In this program, the thesis work is accompanied by a structured training program on scientific writing and presentation. Therefore, there are a few things for you to consider. Please find a brief summary below.

If you have any questions, please feel free to contact st@math.uni-goettingen.de

Students participate in the following courses/events in addition to their thesis work:

- Before** (during) thesis work: block course “Scientific Writing” (three Fridays)
- During** thesis work: submission of three milestones and mutual peer-feedback, participation in a tutorial

Scientific Writing

Scientific Writing is a block course offered every semester (during the first few weeks). As the course is supposed to provide students with useful knowledge and skills for working on a thesis¹, we strongly recommend them to visit Scientific Writing **prior to the start or during the first half of their thesis**.

The course is mandatory for all students of Applied Data Science (B.Sc. & M.Sc.). However, it **doesn't require any action from you** as their supervisor.

Milestones and Peer Feedback

Each student has a “writing buddy” (another student). As **mandatory examination requirement** for Scientific Writing, students need to submit specific parts / stages of their thesis (**Milestones**). With their writing buddy, they provide each other mutual peer feedback on those milestones.

The milestones are **identical for all students** and their submission follows a **fixed schedule** depended on the individual thesis registration dates as shown in this table:

Milestone	Bachelor's Thesis	What is to be submitted?
1	4 th Friday after registration	Research Proposal
2	10 th Friday after registration	Figures and Tables Draft
3	13 th Friday after registration	Full Draft

Please make sure that theses are registered early on. Registering a thesis a few weeks before submission is not possible and will result in a potentially long delay for the students!

We collect the milestones and organize the peer feedback and tutorial centrally (no responsibilities for you). **We kindly ask you to consider these milestones in your supervision and the project plan for the thesis, and to support the students in meeting them.**
